

Passport Activity Newsletter

December '22

Welcome to the **December edition** of our Rotherham CU Passport Activity Newsletter. We'll be publishing a CU Passport Activity Newsletter just before each school holiday, packed full of fun activities and ideas to keep you busy – in this version, you can find jolly Santa science, arts and crafts, poetry, trail running, festive rides, scavenger hunts, film nights and lots more!

In our newsletters, you'll find activities taking place across the town in the school holidays – and if your child has a Passport to Learning, they'll be able to earn CU credits for taking part in all of them! Some of the activities are FREE while some will need to be paid for, and some require booking in advance. We would always recommend contacting the Learning Destination (approved activity provider) before making a special journey to join them, and you can find contact details of ALL of our Learning Destinations here:

www.childrensuniversity.co.uk

During 2020 and 2021, our friends at Sheffield CU published daily CU Home Learning Challenges and reached **98** of them by the end of the school year! You can find them and more here:

<https://bit.ly/SCUHomeLearningChallenges1-98> <https://bit.ly/SCUWeeklyEssentialSkillsChallenges> We'll be sharing a selection of them in these newsletters, so why not have a go at completing them at home? You'll need to take your work into your school to show the staff, and why not tell them about all the things you learned, and how you developed a range of skills by completing the challenges? They'll give you an activity stamp code so you can enter it onto CU Online and claim your CU credits towards your next award.

If you see challenges published by other CUs, then do feel free to complete them too. To claim your CU credits for these, you'll need to show your work to your teacher in school, then they'll be able to give you your CU activity stamp code to add to CU Online.

You can find Learning Destinations in Rotherham and beyond at www.childrensuniversity.co.uk or see our latest list at the end of the newsletter, as well as in Sheffield and Doncaster too, so why not visit some of them and collect EVEN MORE CU credits in your Passport to Learning? We're welcoming new Learning Destinations to Rotherham all the time – see details later in the newsletter, on how you can nominate an activity provider to join us! Make sure you're following us on Twitter for our Rotherham CU news!

Did you know?

The Passport to Learning is your key to exciting learning activities in and beyond Rotherham!

Looking for a new activity to try? Want some ideas for things to do nearby? Are you having a trip out somewhere? Going on holiday? Visiting friends and family? You can collect CU credits at museums, castles, forests, coastlines, mountains, cathedrals, zoos and lots of other famous landmarks in Rotherham and right across the UK.

1. Get ready!

- **Get a Passport to Learning.** Ask in school how you can do this.
- **Visit the website:** www.childrensuniversity.co.uk/activity-search

2. Get in on the action!

- **Use the website to find details of Learning Destinations** before you go. Why not refresh your search whilst you're out and about?
- **Visit them and learn lots!** Look out for structured learning activities such as trails, talks by experts, quizzes and workshops (remember: **only** these structured activities count towards CU credits).

3. Get your CU credits!

- **Collect your CU Activity Stamp.** Ask a member of staff at the Learning Destination for the code. Record it in your CU Passport to Learning.
- **Claim your CU credits.** Log into CU Online, enter your Activity Stamp Code and see your credits increase. Why not review the activity (tell us what you learned and what you thought about it), and we'll award some extra credits! Ask in school if you need any help.

Home Learning Challenges!

 Sheffield CU published 98 Home Learning Challenges during the summer last year – everything from making sock puppets to mini Olympics, and curating your own museum to making slime!

Find them all here:

<https://bit.ly/SCUHomeLearningChallenges1-98>

CU Home Learning Challenges
What are challenges? Making them fun and easy to do! Making them useful to you! CU credits! Have a look at the 98 challenges and click on the link to go straight through to the activity! Pick your CU credits, follow the guidelines of each challenge! Have fun!

Age/Year	Activity	Description	CU Credits
11-12 years	Make a museum	Make a museum about a topic you are interested in. It can be a real museum or a virtual one. You can use photos, videos, and other resources to make it interesting.	10 CU Credits

They published 5-part collections of challenges themed around the seven continents of the world!

Find them all here: <https://bit.ly/CUContinentsChallenges>

 They published collections of Home Learning Challenges for the school holidays. Find them here:

Christmas holidays:

<https://bit.ly/SCUWinterHomeLearningChallenge2020>

February holidays:

<https://bit.ly/SCUFeb2021HomeLearningChallenge>

Easter holidays:

<https://bit.ly/SCUEaster2021HomeLearningChallenge>

Spring holidays: <https://bit.ly/SCUSpring2021HomeLearningChallenge>

They have published a series of Home Learning Challenges focusing on essential life skills we believe every child and young person should be developing.

Find them here: <https://bit.ly/SCUWeeklyEssentialSkillsChallenges>

 To claim your CU credits, you'll need to show evidence of your learning to a member of staff in your school, so they can give you a CU Activity Stamp Code in your Passport to Learning. You can claim your credit using the code on CU Online.

Winter Challenge: Cookies for Santa!

- You will need:**
- 225g butter, softened
 - 110g caster sugar
 - 275g plain flour
 - 1 tsp cinnamon or other spices (optional)
 - 75g white or milk chocolate chips (optional)

We think Santa needs an extra special treat this year (and you do too!), so how about baking some really simple but scrumptious cookies to enjoy but remember to save one to leave out on Christmas Eve! Shhh, don't tell anyone, but we've heard these are his favourite!

Step 1: Ask an adult to help you heat the oven to 190C/170C fan/gas 5 so it can be getting nice and warm while you're mixing the ingredients. Mix the butter in a large bowl with a wooden spoon or in a mixer until it is soft. Add the sugar and keep mixing until it is light and fluffy.

Step 2: Sift in the flour and add the optional ingredients if you're using them. Bring the mixture together with your hands, rolling it in a figure-of-eight motion until it forms a dough. You can freeze the dough at this point in case you wanted to bake it at a later date! Why not use double the ingredients, mix it following the instructions to here, then freeze half and bake half?

Step 3: Roll the dough into walnut-sized balls and place them slightly apart from each other on a baking sheet (you don't need to butter or line it). Flatten the balls a little with the palm of your hand.

Step 4: Bake your cookies in the oven for around 10-12 mins until they are golden brown and slightly firm on top. Take them out, remove them from the baking sheet and leave the cookies on a cooling rack for plate or around 15 mins before serving. We think they go perfectly with a drink of milk or a hot chocolate!

You can collect **1 CU credit** for completing this task. To claim your credit, show evidence of your learning to your teacher in school. They'll give you your CU Online Activity Stamp Code and you can enter this onto CU Online to claim your credit. If you need more help, ask in school! We can't wait to see your work!

Winter Challenge: Family Film Night

- You will need:**
- A film, snacks and drinks
 - Paper, pencil, etc.

The Christmas holidays are one of the best times of the year to spend with family at home. Those dark nights, that crisp cold air – what's better than staying indoors, wearing your favourite pyjamas, snuggled under a blanket or duvet? And even better, why not enjoy watching a film together and maybe with a few of your favourite snacks and drinks?

Sound perfect, so here's a challenge to get you planning a family film night at home!

Step 1: Plan when you'll have your family film night – choose a date and time together, and make sure everyone knows!

Step 2: Decide on which film you'll watch. Will you watch more than one and have a family movie marathon?! You might need a vote to decide on the film, or if you have lots of favourites, why not have more than one family film night over the holidays? Make sure you know how you'll be watching the film – will it be on DVD (did you know you can borrow DVDs from Libraries?), or will it be on that's on TV, or perhaps you have access to film channels or Netflix for example?

Step 3: Eating snacks while you're watching the film is a great part of a film night too! Plan your snacks beforehand. Will it be traditional popcorn? Maybe some chocolate or sweets (not too many!) that you received over Christmas? How about drinks? Why not plan some healthy snacks and drinks too? Get some great ideas from <https://www.bbcgoodfood.com/recipes/collection/snacks-kids-recipes>

Step 4: Think about creating that exciting cinema experience – you could close curtains and blinds, and dim lights to make it darker, and check the volume is right for everyone in the room. You could even make some pretend cinema tickets for everyone!

Step 5: When it's time for your family film night, get everyone together, serve your snacks and drinks, get snuggled together and enjoy the film!

You can collect **1 CU credit** for completing this task. To claim your credit, show evidence of your learning to your teacher in school. They'll give you your CU Online Activity Stamp Code and you can enter this onto CU Online to claim your credit. If you need more help, ask in school! We can't wait to see your work!

Winter Challenge: Create a Christmas Card

Christmas is a time of year when people send their love and best wishes to friends and family. It is traditional to send Christmas cards to others, and so here's a challenge for you to create your very own Christmas card to send to someone (hand-made are the BEST!). You might want to simply wish them a 'Happy Christmas' or 'Season's Greetings', or you might want to use this opportunity to say 'thank you' to someone, or to tell someone how much they mean to you. It's your card, your design, so your message!

- You will need:**
- Paper or card
 - Pencil, pencil crayons, etc.
 - Craft items (optional)

Step 1: Think about who you will send your card to. Think about the message you'll put inside. What do they like about this time of year? That might help you design your card.

Step 2: Decide on the layout of your card. Will it be a rectangle shape? A square perhaps? Maybe an unusual shape? Will it be portrait (tall) or landscape (sideways) layout?

Step 3: Get creative! You might want to draw a picture on the front? Maybe even paint a picture! Can you use your fingers and hands (or feet!) to paint?! How about sticking some craft items on too? What colours will you use? Or will it be black and white?

Step 4: Once you've finished the design on the front, write your message inside. Remember to write who the card is to, and of course, remember to write who the card is from as well!

Step 5: Ask an adult to help you make sure the card gets to the right person – will you be able to give it to them in person, or will you need to post it?

You can collect **1 CU credit** for completing this task. To claim your credit, show evidence of your learning to your teacher in school. They'll give you your CU Online Activity Stamp Code and you can enter this onto CU Online to claim your credit. If you need more help, ask in school! We can't wait to see your work!

Winter Challenge: New Year's Resolutions

The New Year is traditionally when people make New Year's Resolutions – promises to themselves about things that they will try their very best to do throughout the next year. It could be anything – from keeping a bedroom tidy, to being more helpful around the house. A New Year's Resolution could be about trying something new or learning a new skill perhaps. Maybe it will be raising money for a charity throughout the year, or even volunteering at school or in the community. It could be something small or something big...it really doesn't matter. It's YOUR New Year's resolution so it's up to you! You can use our template on the next page if you like, or design your own poster.

- You will need:**
- Paper or card
 - Pencil, pencil crayons, etc.

Step 1: Have a think about New Year's resolutions. Ask an adult to help you make a list of the things you might like to make a resolution for, in 2023. They might have some great ideas too!

Step 2: Decide on one resolution (you can choose more if you like!). Think about how you will achieve it. How will you stay motivated right throughout the year, even when you're finding it difficult? Who could you ask to help you stay on track? How might you reward yourself for staying on track?

Step 3: Have a think about how you could record your progress on your New Year's resolution. Could you create a cartoon, drawing a picture for each month and write a sentence about how it's going? Try our template if you wish! Or could you write a poem about how you might be feeling about your New Year's resolution (it might be that you're feeling positive and motivated at the start, but have a time in the middle of the year when you're finding it difficult to keep it up, but then find motivation from somewhere and end the year on a high? Who knows! It would be nice to be able to look back and remember as the year goes on).

You can collect **1 CU credit** for completing this task. To claim your credit, show evidence of your learning to your teacher in school. They'll give you your CU Online Activity Stamp Code and you can enter this onto CU Online to claim your credit. If you need more help, ask in school! We can't wait to see your work!

Winter Challenge: Winter Walk Scavenger Hunt

There's nothing better than a walk on a cold, crisp day (and a nice warm drink afterwards!), so here's a challenge to get you out and about with your family. We don't just want you to go out for a walk though – we want you to get your best observational skills ready, and complete your very own scavenger hunt on the way!

Step 1: Ask an adult to help you decide when and where you might go for a walk. Who will come with you?

You will need:
- Paper and pencil
- Camera (optional)

Step 2: Make a list of things to look for (or you can use our list on the next page!)

Step 3: Get wrapped up warm and off you go! (make sure an adult goes with you)

Step 4: Each time you spot one of the items on your list, tick it off. Maybe your adult could take a photo of you with each one? Could you print them off and turn them into a collage picture?

Step 5: Maybe you could repeat the activity on another walk in another area? Could you design your own scavenger hunt, and design grids with the same items but in different squares on each of the cards? You could play a game of 'bingo' on the way round! Whoever gets a full, straight line first wins a prize! What about another prize for the first person to get all four corners ticked off, or even a prize for a 'full house'?

You can collect **1 CU credit** for completing this task. To claim your credit, show evidence of your learning to your teacher in school. They'll give you your CU Online Activity Stamp Code and you can enter this onto CU Online to claim your credit. If you need more help, ask in school! We can't wait to see your work!

WHY NOT PRINT THIS PAGE, CUT OUT THE SLIPS AND TAKE THEM ALONG TO ACTIVITY PROVIDERS TO INVITE THEM TO JOIN ROTHERHAM CU?

You're invited!

I am a member of Rotherham Children's University (CU) and I'd LOVE it if this club/group joined in too!

I earn CU credits for choosing to take part in high quality, learning activities in my own time. These credits lead to 30 different awards, as well as them helping to build my confidence, motivation, and self-esteem, develop skills, make new friends and have fun. Ask me to tell you about it!

It would be AMAZING if children were able to collect CU credits for taking part in activities here too, but we can't until this organisation is registered. It's FREE for you to join, and a really quick and easy process. Just add a few details on the link below and the CU Team will be in touch: www.childrensuniversity.co.uk/get-involved/learning-providers/ Once registered, you don't have loads of paperwork to fill in plus it might even bring in more members to our group. There's lots of benefits for you as well - free publicity is just one of them!

Contact Helen Oades (h.oades@shu.ac.uk or 07760 116874) for more info. I hope you'll be able to join soon so I can earn more CU awards!
